

Ø 108 mm

The image shows a technical drawing of a cylindrical component. The main drawing is a rectangle representing the cylinder's profile, with a diameter dimension of Ø 108 mm indicated by a horizontal double-headed arrow above it. The height of the cylinder is dimensioned as 101 mm by a vertical double-headed arrow on the right side. The top and bottom surfaces of the cylinder are shown with rounded edges. A detail view is located at the bottom of the cylinder, showing a cross-section of a thin-walled tube with three parallel lines representing the wall thickness.
